MagicBox brings out touch panel radio

DAB/FM device "ideal for the kitchen"

by Katie Scott published on 27 May 2008

The latest radio from MagicBox is all black, sleek lines and boasts a touch panel.

"The Touch DAB/FM Radio is ideal for the kitchen where the sticky fingered cookery enthusiast need only wipe the panel clean when changing stations", says the manufacturer.

There are a total of 20 presets, 10 for DAB and 10 for FM stations, and an autoscan function.

Additional features include a backlit display alarm clock, two 3 watt speakers and connection for MP3 devices.

The radio is also claimed to be fully mobile using battery power (6 x LR14 (Size C) batteries) or the mains option.

MagicBox adds that the radio is 115mm high x 275mm wide x 65mm deep.

It is priced £59.99 and is available now.
